Re: Endorsement Letter

Duncan Cottrell is an "educated craftsman" that services clients as the Entry Enforcer. He has my highest endorsement.

My name is Dr. Andrew Vantreese. I live in a neighborhood that deals with a high level of crime activity. In my 13 home cul-de-sac subdivision, almost 80% of the homes have had a crime related incident happen. Something needed to be done to provide a higher level of safety and protection that would make us feel more comfortable in our home.

We asked Duncan to come to our home and evaluate areas where we were at risk. He installed the Strike Master on our front door. The Strike Master is a metal door reinforcement used to prevent kick ins.

Duncan completed the project quickly and when the job was done you couldn't even tell that he had been there. He was professional and cleaned up after himself. He also installed longer and stronger screws to reinforce our hinges without charging us extra.

All in All, I couldn't be more pleased with Duncan and his work. If you need to have added security and better peace of mind, I highly recommend you call Duncan, the Entry Enforcer.

Sincerely,

Dr. Andrew Vantreese
