Dear Ed,

I had a problem. I needed to replace carpet in an entire rental property and was apprehensive because of my very limited expertise in that area.

You were just what the doctor ordered.

You explained the pros and cons of what might be appropriate for my rental property and let me make the decision without over selling the product. I was very pleased with your competitive quote and timely installation.

Ed, your personable, professional service made a difficult job very easy and I thank you so much!

Ernest Creal
