Dear Ed,

I want to thank you for the great hardwood floor you installed in my bedroom. Your crew did an excellent job, and the cleanup was top notch. The installation took less than a day, and my Mom was wowed when I showed her the picture a few days later.

I appreciate your professionalism in helping me pick just the right materials for the new floor. The blond oak is classic, and reminds me of the floors in a childhood home. It really helped that you could explain the pluses and negatives of the different options like bamboo, cork and hardwood laminates from sustainable sources, something that is important to me.

I will be recommending you to my friends, family, and colleagues in PowerCore.

All the best,

Wesley Anderson, DCH
