Dear Chris,

I've really enjoyed the social media marketing plan you developed for us at our recent marketing meeting. Because of your ideas and the way you collaborate with our team on marketing initiatives, we've really improved our ability to bring in business.

When we started working together I thought I just needed a graphic designer to redesign our logo and website, but your ideas for how we could expand our brand into social media marketing have really worked for us. We've come to realize that you are really more of a brand manager for us now.

It's been a great three years for Dickason Law Group and I'd be happy to recommend your services to any company that wants to grow the way we have – from one office to six in three years! Not bad, eh?

Thanks for all your design work and marketing ideas.

Matthew A. Dickason
