Dear Chris,

Thanks for your expertise and help. Our web site is really exceptional. It is so nice to work with a professional.

At first I was scared to look at the site. As you know, we spent over a year with three other designers and made so little progress. I was fearful of more of the same, fearful of lost time. And just basically so upset about the process so far I couldn't really bear more disappointment.

Thanks for being 100% different than the others. The site came together and launched exactly the way you said it would in only three weeks. My clients easily navigate it and it's stunning.

And we've been able to expand it to include hundreds of images of our work.

Thanks again and great job. You delivered more than you promised and I am a forever client.

Sincerely,

Cayenne Barnes
