Dear Ben,

Three years ago, you made it possible for me to meet and begin working with one of your wealth management clients. This was one of the best referrals I have received as a PowerCore member.

I want to thank you for trusting me to handle her daily money management to make sure her long term health care and financial goals would be met. Your initial planning with her paved the way for her to remain in an appropriate health care facility for the duration of her life. For this she is very thankful.

She is a wonderful client and I appreciate the opportunity to work with her.

Sincerely,
