Leslie Pierce is so much more than an accountant & tax advisor! She adds to her professionalism the listening ear & sound advice of a good friend, while remaining just far enough away to be able to help you see the whole big picture of whatever it is you are dealing with! Her attention to loose ends & careful consideration of detail lets you know she can handle your most complicated matters with the utmost of ability. Whether it's a simple matter of some casual labor 1099's that need to be filed, or the most convoluted tax return that needs straightening out, you can trust Leslie to get your job done – well, timely, efficiently, & reasonably priced!
