Dear Kevin,

When a writer from the AJC came to my shop on a Thursday afternoon and said she wanted to do an article about me I was excited. Then she told me she needed a photo of an orchid arrangement by Monday. I was filled with dread. I have endured many frustrating photo shoots with flowers and difficult photographers. I asked you to help me and you graciously offered to do this on a Sunday. I was amazed that you spent 3 hours perfecting every detail from the colors of the orchids to the splinters on the branches.

Then you gave me multiple files I could use for my website and print. Even better was the stunning image you printed on cotton rag paper which I will frame and display in my shop.

Your photographic artistry far exceeded my expectations and I truly enjoyed working with you. I'm looking forward to referring the professionals that I meet to you and I especially look forward to experiencing more creative photo shoots with you.

Warm regards,

Terry Furuta
