Dear Bill,

Not one but two car accidents within a year and a half of each other. Though neither was my fault, I had to deal with: car damages, time without my car and injuries because of them. The second wreck, involving my brand new car at the time, was the worst, took the most time, and caused the most damage including a few minor injuries.

Not only could I tell that you genuinely cared for my wellbeing during both cases, you also guaranteed that I was taken care of and compensated fairly. You asked all of the questions I never thought to ask and made sure I knew all of the questions I needed to ask as well. Every angle was covered with minimal hassle and involvement from me. I did not have to worry about a thing. You made every interaction simple to understand and everything was executed smoothly.

You always hope that you will never have to deal with car accidents. The after effects of them can be a hassle however, if they do happen, you are certainly the attorney I would recommend to anyone dealing with them. Your personable friendly and thoughtful manner makes you perfect the person to contend with these high stress situations. Thank you for helping me through those troublesome times. I appreciate the time and effort you put into making it all manageable and successful.

With Sincere Gratitude,
