To People Needing a Business Attorney,

I had the pleasure of working with Shane Stogner recently on a couple different business legal matters. I choose to work with Shane because of the integrity and knowledge he has shown repeatedly over the past couple of years through our PowerCore Team, but I was also highly impressed with the depth that he truly cares for his clients and the thoroughness in which he conducts business. He took the time to sit down and really understand what I wanted and needed, then walked me through all the steps needed to meet my goal. He never rushed me and I never felt like he prolonged anything in order to get "billable time". He has a set price of \$200 for setting up a new company and you can rest easy knowing everything is done correctly in addition to having someone trustworthy and knowledgeable representing you and your business interests.

I also was highly impressed while working on another matter with Shane. When I arrived at his office, he had a huge dry erase board set up with notes and graphs about my case. We were able to sit down at the conference table to brainstorm and walk through all the "what-ifs" and have it all written out on the board. It was easy to follow the process and understand what was needed and the direction we were following. I also appreciated that he does not want to pile on a bunch of "extras" just so we can negotiate back down. He is very direct and works towards exactly what is needed. I believe this really shows his reliability and cuts out all the nonsense. Once we had our plan together, he swiftly acted to get the process going.

I have been much happier in general and feel much brighter about my future because Shane took the time to listen, care and put plans in motion to get me where I want to be. I highly recommend Shane for any of your business legal needs. He will get you where you need to be fairly and accurately.

Sincerely,

Deana Dalrymple
