LEARNING DESIGN STRATEGY & ONLINE COURSES

Dear Carpet Direct,

I approached Ed Torrence of Carpet Direct because my husband and I were in the process of doing rather extensive renovation work on our home. One phase of the project we were really dragging our heels on was the removal and replacement of our downstairs carpet and flooring. Simply the thought of browsing through endless flooring and carpet samples made our heads spin.

Ed Torrence helped us by bringing the carpet samples to us, and by talking us through options for flooring and carpet that suited our home and our lifestyle.

One thing I really liked about working with Ed was that he's a low-pressure sales guy who really knows his industry. I also liked how he provided us with a carpet and flooring installation crew who handled the job seamlessly (pun intended).

I would recommend Ed Torrence and Carpet Direct to homeowners or business owners who want to upgrade their homes or businesses without all the hassle or headache of going it alone.

Regards,

Jessie Hayden, Designer
