To anyone wishing to know Doug Durham,

You've made an excellent decision. When I first met Doug, I had just started at Haven Insurance Group. Doug told me he could help my clients who have had a total loss after an auto accident. He has the ability to go to auction to find the best deal and is a negotiation king. These two qualities make him a car buying expert and extremely valuable to the busy individual.

Fast forward to today. Since our initial meeting he's helped over 30 of Haven's clients get a new ride. In addition to helping my clients he's also helped me personally after I had an auto accident in which my car was totaled. Doug took the time to review what I was looking for in a new car. He made some suggestions on what I should look out for, what he's seen on the market, and what I can expect to pay "all in and delivered". From the time I let him loose to find my new car to when he handed me the new keys was a matter of days. Not only was he able to secure the car I wanted, he was able to do so under budget.

With all the positive experiences myself and my clients' have had with Doug I refer him without hesitation. He's always been able to help in the time of need. Whether that is after an accident, or when you want to upgrade to a bigger and better car. I wholeheartedly recommend anyone looking for help finding the car of their dreams to Doug. You'll be happy you trusted him.

With warm regard,

Ben Ragin
