Endorsement Letter

If you have tried the traditional methods to gain a mortgage, or just don't believe you will qualify, you need to talk to Jaad Nicholas.

Running our own small business means we cannot show income with pay slips from an employer, when this was then added to low credit scores we were turned down by our bank and a mortgage broker. Completely disheartened we believed that owning our own home was something that would have to wait several years, until we had improved our credit scores and had a significant sum saved towards a deposit and closing costs.

Then we spoke to Jaad. Jaad reviewed our credit history and gave us advice to help improve our scores quickly. Not only did we now have hope but in just a few short months Jaad was able to approve us for a mortgage and we were searching for our first home as a married couple.

But Jaad doesn't stop at approval, him and his team continue to work closely with you to make sure the rest of the mortgage process is as smooth as possible. We even closed ahead of schedule because of Jaad and his team at FBC.

If you are honest about your finances and follow Jaad's advice becoming a homeowner is a realistic goal. No gimmicks, no crazy interest rates or unusual terms – just a straight-forward mortgage.

Kindest Regards

Elwood Daniel Hemming, IV and Anna Parker-Hemming
