Dr. Dana,

After listening to your presentation on the opioid epidemic, and hearing the passion for helping others where modern medicine failed it was a clear choice as to who I would turn to for treating my endometriosis & chronic pain.

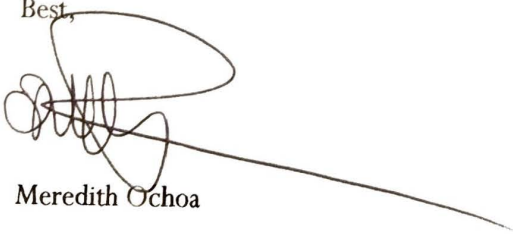

It is more important to know what sort of person has a disease than to know what sort of disease a person has. And at 6 AM you are enlivened and ready to begin getting to know the people you are treating & their lives instead of just their symptoms. I cannot tell you how much I appreciate this, and what a privilege it is to be able to see you in this capacity.

This letter really cannot possibly even begin to describe the impact you make and who you are for others, however I hope at least one phrase or punctuation mark in this letter will inspire someone in pain to reach out to you and realize that there is a way, even when they have been told there isn't.

You are truly a gift to this world, showing up every day as a champion at the highest level of service to others. I look forward to our continued work together and I am thrilled about recommending you to everyone I know that modern medicine has failed.

Seeing Dr. Dana IS health insurance. Premiums small. Dividends large!

Best,

A handwritten signature in black ink, appearing to be 'Meredith Ochoa', with a long horizontal line extending to the right.
