For any potential referral given to Jackie Csonka:

When I started to realize that I had not been putting away enough money for my early* retirement, I knew that I needed help. I needed someone to help me see a larger picture and a longer game. When I called Jackie, I found out that she isn't just a financial advisor. She is more than that, and she really showed how much she cared about her client's financial stability.

Jackie helped me to realize how to focus my efforts in the saving and investing game by listening to what I was hoping to do and turning that into a strategy to get where I want (early* retirement). Her service and knowledge in her field made switching all my IRA and 401k accounts to her company an easy decision. She is always there to answer questions and give advice when needed.

If you are looking for a financial advisor or better yet, a money coach, there is no one else I would recommend. Jackie Csonka has a customer for life in me and I couldn't be happier with my decision.

Sincerely,

Ryan Pinson
