Robert Mitchell
Peak Printing
Woodstock, GA

Robert,

I cannot say how impressed I was with your level of expertise when it comes to the different types of paper. Who knew that laminating normal sheets of paper was so out of date and the better option these days is using Synthetic Paper.

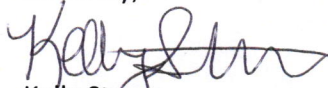

I brought my best friend who is renewing her wedding vows this year to your shop because she wanted to see what her options would be for invitations. Michelle was ready with her Pinterest Board ideas!

Your engagement with Michelle and how you listened to every detail about the invitations, to the table toppers, to the signs she wants goes beyond what I imagined. You provided samples of products you would use and even told Michelle ways she could do things on her own that would save her some expenses. These days, businesses what to nickle and dime you, but not Robert Mitchell.

When Michelle and I left your shop, she looked at me, took a deep breathe and said, "Wow, I feel like a weight has been lifted." She was worried that her Pinterest Board wants were going to be out of the question because of costs, but not with Peak Printing and the solutions they can provide!

Just this first time interaction bringing not only my best friend, but potential customer to you showed me how well you will take care of her wants and every potential customer that walks through your doors.

Sincerely,

Kelly Stover
Regional Sales Director
