

KRAGTEN LAW

To whom it may concern:

I had the pleasure of working with Holly Neumann at Fresh Eggs Web Design and I write to provide my sincere endorsement. I had just rebranded, and rebuilding my website was next on my list. My previous website was built on a do-it-yourself platform and it looked it. There were a number of issues that I wanted to be addressed and particulars that had be implemented. Holly answered all of my questions and raised other issues that I was not even aware of. She built me a new website from a blank slate and addressed the website aesthetics, functionality, and compliance. Holly was also an excellent resource for securing the necessary elements to put into the website. She connected me with a copywriter, photographer, and videographers; all of which were top-notch.

The process of building a website at Fresh Eggs is systematic and well thought out, clearly honed through years of experience. Constructing the site seemed akin to constructing a physical structure with an order of operations, a specific place for each element, and a clear timeline so that all of the pieces fell into place without delay.

I cannot recommend Holly at Fresh Eggs enough. She listened carefully to what I wanted and made solid recommendations. Her process was thorough and regimented, and her final product is polished and professional.

Sincerely yours,

Jordan C. Kragten
