Thank you Clay Jeffreys!

You listened to every proposed mortgage based scenario in the last 5+ years and gave me insight on the possibilities. That is not something one can expect by going to the bank they have their checking account with.

I appreciate your follow-up and your patience. I respect your knowledge in a topic that is not on my top 5... well not even my top 30 list but I find it valuable to have an expert helping with every step towards the uneasy 100 signatures at closing.

Your experience and knowledge of the details of the financing of a home under different circumstances has given me an affordable mortgage that will allow me to invest in my company if necessary.

Sincerely grateful,

Tammy Freeman
