**UP UP AND AWAY**  
**JUNK HAULING**

To whom it may concern,

Casey Beaver with Roof It Forward helped me out at my personal property and did a fantastic job! When I purchased my home, there was a defunct satellite dish left behind by the previous owner. I never used it, and didn't give it a second thought. When I was cleaning my gutters, I noticed a sunken area of my roof 5 feet to the right of the dish and immediately called Casey.

Casey came out and did a video survey without even needing me present. As it turns out, there used to be a second satellite dish that was removed. Whoever removed it did not reseal the area properly leading to a water leak and significant decking damage. While he was investigating that issue, he asked if the satellite dish was in use because he was concerned the dish would cause another sunken area.

Within 2 days, Casey's crew was at my house and within 2 hours they removed the defunct dish, fixed both areas, resealed all my roof penetrations and cleaned up perfectly. They even let my kids watch them work and gave them high fives. I have now referred Casey to my clients, partnered with him on projects, and used him at my home. I can not imagine a better roofer.

Sincerely  
A Taylor Chastain  
Owner - Up Up and Away Junk Hauling

A handwritten signature in black ink that reads 'Taylor Chastain'.
