

To Whom It May Concern:

I highly recommend Dr. Mike Tumminello and Dr. James Myers of Tumminello Health Group!

I had been suffering from shoulder pain for several years and had seen several orthopedic doctors, had several corticosteroid injections, and had many rounds of physical therapy but just couldn't get relief and improvement.

I started treating with Dr. Mike and Dr. Myers and received adjustments and Shockwave Therapy and it has been life-changing. My pain is much lower, and my movement has significantly improved. I feel like a new person.

If you have been suffering from chronic pain, you need to make an appointment with Tumminello Health Group. They can get to the root of the pain and improve your quality of life.
