Dear Dr. Gillian-

Please accept my apology for this long overdue letter.

I am familiar with chiropractic care as I have been cared for by my grandmother who, as you know, was a chiropractor. However, you were my first encounter with a kinesiologist.

I believe my first appointment with you was after a 'walking' accident which produced a significant bruise on my thigh and back pain. You fit me into your schedule and went right to work. After only a few visits I was back on track. Since then, you have helped me on a regular basis as well as for the little tweaks in between – once even at a restaurant!

You impress me with your knowledge, skill, strength and focus in diagnosing the issue and attacking it with concern and determination. You are generous, kind and sometimes even gentle! I also appreciate your willingness to refer/encourage me to see Shannon for acupuncture to get for additional assistance in healing my broken elbow.

You'll always be my 'go-to' and I will refer you to anyone who needs someone to yank on their big toe to fix their pancreas! 😊

Sincerely,

Annie DeRose-Broeckert
