Dear Jacob,

First, I want to express my appreciation for your professionalism when you arrived to give us a quote. You gave us very clear expectations in terms of budget and the timeline for the project.

Second, the quality of your work both in sheetrock repairs and painting is exceptional. I even had another contractor comment on how well both the sheetrock and painting were done.

My wife Anna and I can recommend you without hesitation. Congratulations on satisfying us because we have high expectations.
