Brooks,

I am writing to thank you for your recent help with my family's estate planning. I've found you to be kind, thorough, and very trustworthy. Addressing these important matters is never easy and I know that some people feel it is a topic that is taboo. I have trusted you with the most important people in my life (my parents, kids, and spouse), and I feel extremely comfortable in recommending you to others.

When I think of the future and the uncertainty it brings, I feel that you have helped bring certainty and safety to our family in the event that the unspeakable happens. Thank you for serving as such a trusted advisor to our family.

Regards,
