Re: Lisa Ann Landry
US Health Advisors

To whom it may concern,

I have personally been acquainted with Lisa Ann Landry for 7-years and over that time, I have come to know Lisa Ann on a professional level. In the US, the healthcare system is difficult to navigate alone and having an expert by one's side is not just important but crucial. Lisa Ann is my go-to-expert for healthcare advice,

The first time I needed her was for advice on an emergency medical issue with my daughter. I called Lisa Ann to have her help me negotiate the healthcare maze for emergency care. She calmly explained my options to me, made a recommendation of an urgent care facility and suggested I take my daughter there immediately. I followed her advice for what I believed to be a life-or-death situation. As it turned out, the issue was important and needed to be addressed, but it wasn't life threatening. Still, I consider Lisa Ann to be a life saver!

The second time I needed her was when I suddenly required individual healthcare. Again, she guided me through the range of options and helped me select the option that was best for me. She is professional, knowledgeable and courteous. The healthcare product she recommended was perfect for what I needed at the time. I could not have negotiated the process without her and for that, I am grateful

My daughter and her husband will be needing healthcare coverage in three months and it should be no surprise that I recommended Lisa Ann to them today. I know Lisa Ann will take excellent care of them by giving the proper healthcare coverage that gives them peace of mind.

I wholeheartedly recommend Lisa Ann Landry for all one's health insurance needs.

Sincerely,

Jeff Bartholomew
