RE: Endorsement Letter

Date: February 20, 2025

I referred you to clients of mine, Sara and Tyler, who you moved from an apartment to a house and after working with you I received the following message from them thanking me for introducing you to each other:

“Hey there!! Just wanted to say that the movers you recommended did a phenomenal job yesterday! They had our stuff moved over in just under 4 hours start to finish and took exceptional care of our stuff. Thank you so much for recommending them!”

Over the years I have heard of too many terrible incidents with friends and clients moving experiences that I was beyond pleased to here how much a “phenomenal job” you and your team did for my clients. I would refer you again knowing that you would bring that same professionalism and “phenomenal job” for them.

As a Family Law Attorney, I need to feel that the people I refer my clients to are knowledgeable and professional. Since Divorce is one of the worst points in a person's life, they need to feel comfortable and protected, which is why I have referred them to Torrence to help them move on with their futures.

Thank you.
