I went to see Dr. Annie Banks for a shoulder and elbow issue that was causing me a lot of pain. It was so bad that it kept me from doing the activities I love—pickleball, camping, and horseback riding. Thankfully, Dr. Annie is certified in Active Release Technique (ART), and that made all the difference! After just two appointments, my pain was completely gone, and I'm back to enjoying life without discomfort.

Dr. Annie Banks is an exceptional doctor who truly cares about her patients. From the moment I walked into her office, I felt welcomed and at ease. She takes the time to listen, explains everything clearly, and ensures that I feel comfortable with my treatment plan. Her professionalism, kindness, and expertise set her apart. The staff is also friendly and efficient, making each visit a smooth experience. I highly recommend Dr. Banks to anyone looking for a knowledgeable and compassionate Chiropractic

Thank you for making me better Dr. Annie!
