2/11/2021

I came to Dr. Jill Driver late summer of 2020 experiencing pain in my lower back that I have been experiencing for years. It was something that I just coped with and thought I would never feel relief from. After visiting Dr. Jill I can honestly say that there are days that I have to remind myself that I even had back pain at some point. I am an avid tennis player and would have difficulty finishing matches due to the excruciating pain in my lower back. This is no longer the case and I am forever grateful for Dr. Jill and the painless chiropractic service she provides. She is not your regular pop and crack your back chiropractor (I've had a few of them in the past) and for that I love her! Everyone in her office is super friendly and makes you feel right at home. The relaxation chair is everything! Many thanks to you Dr. Jill and your healing hands, you are the best!

*Oh yeah my husband is a client now as well!
