

# AMERIS BANK

April 16, 2025

To Whom It May Concern:

It is my pleasure to write an endorsement letter for Mr. David Schleier. Mr. Schleier substituted at my networking meeting on March 26, 2025. While there, I learned that he owned a concierge mechanic business called Breathe Easy. Since I was getting ready to go on a trip to Disney World, I scheduled an appointment. Mr. Schleier came to my office the very same day the appointment was scheduled giving me updates on his estimated time of arrival. I asked him to check my tires, brakes, and do an oil change. I was immediately impressed in the knowledge that he had when reviewing his diagnosis. He explained that my brakes looked good and that I had about another 30,000 miles left before they needed to be replaced. One of my tires had a nail in it and instead of trying to convince me to purchase a new tire, he said "You know you have a full-sized spare tire. Why don't I just put that on your 4Runner for your trip and you can get a new tire when you get back." He then completed my oil change, and he was on his way. What an unbelievable experience! I couldn't believe there was an actual mechanic that wasn't trying to nickel and dime me just to make an extra buck and he genuinely seemed like he cared. But wait, there's more. Later that night when I came outside to walk my dog, I noticed a puddle of oil underneath my car. I was panicked. It was a Friday night and while my initial experience with Mr. Schleier was great, I wondered if I would get a response from him. To my surprise, within minutes of my text, he called me and was on his way over at 8:30pm. Not only did Mr. Schleier diagnose that a gasket had failed but he also replaced it with an upgraded part at his cost finishing up at close to 9:30. WOW! What an experience! To many times auto mechanics get a bad rap and rightfully so. It's nice to know that I've now found a mechanic for life who not only cares but he's someone I know I can trust and that goes a long way! Thank you, Mr. Schleier, for your knowledge and your unbelievable customer service.

Sincerely,

Harry Schnabel
