To Whom it My Concern,

When I first launched Breathe Easy Concierge Mechanic, I struggled to develop a logo that truly captured the essence of my brand. I didn't realize how much impact elements like color, font choice, and even the positioning of my truck in the design would have on how potential customers perceive my business. That's where Nicole Austin from My Design Habit came in.

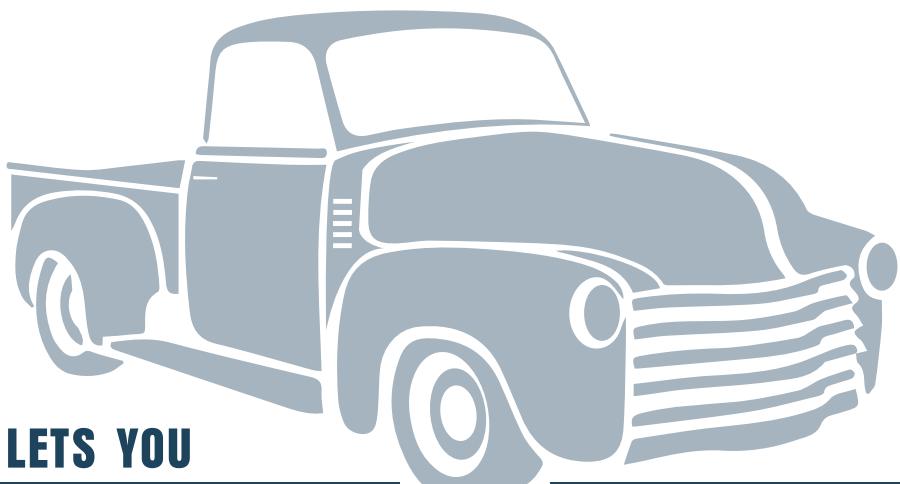

Nicole has a remarkable ability to understand the subtle details that influence customer perception. She approaches every project with genuine passion and care, ensuring that your brand not only looks great but also resonates emotionally with your audience. Thanks to her insight and creativity, I've been able to reach a new segment of customers I hadn't previously considered.

I wholeheartedly recommend Nicole Austin and My Design Habit for anyone looking to elevate their brand through thoughtful, strategic design and promotional products.

Best regards,

David Schleier

Owner, Breathe Easy Concierge Mechanic
