Dear Matthew,

It is with sincere gratitude and esteem that I offer this letter of endorsement for your tax preparation, accounting and bookkeeping guidance services plus your commitment to growing with small businesses.

As a solopreneur teetering on the brink of significant expansion and overwhelmed with my choices for direction and outsourcing possibilities, I chose to work with you due to your interest in growing your own business as you support those who are also growing. Your calm demeanor, ability to break down tasks and new processes into digestible chunks and your availability through my transition process from spreadsheets to accounting software has been immeasurable. Further, the ease of use of your TaxDome portal allowed me to easily and effectively gather, transmit and review materials needed to prep my 2024 taxes.

As year 2025 unfolds, I look forward to learning more from you and gaining traction as my business launches into its next chapter with your steadfast support.

With Genuine Appreciation,

Alex Catherine LaPierre
