

Derek Ferwerda  
Georgia Treemasters

Dear Derek,

My husband Patrick had been talking for months and months about needing to hire a tree guy to take down some trees around our home in Suwanee. And for months and months, I patiently suggested that he get in touch with you. When he finally did, and you came to our house to give him an estimate, he could not say enough about how knowledgeable and professional your team was. I'm sure that you walked around the property with him, and you talked in detail about what you would recommend, and which trees needed to come down and why. The icing on the cake was when he found out about the military background of the guys at Georgia Treemasters. Our oldest son served in the Marines, and we have great respect for others who did.

Fast forward a couple of weeks to the day of service. Again, Patrick was blown away by the professionalism and courtesy of your team. Everything went exactly as you said it would, and I heard nothing but compliments from him. In addition, we were relieved to know that you were 100% insured, and every team member is highly trained.

Derek, thank you so much for making that item on Patrick's to-do list so easy and hassle-free. Because in making his life easier, you make mine easier, and for that I am grateful. I am happy to recommend Georgia Treemasters to any homeowner who needs peace of mind when it comes to keeping their home investment safe.

Sincerely,

*Eleanor L. Thompson*
