Dear Mo,

I had such a wonderful time during my experience with you as I got my "first ever" professional headshot. Your studio is so professional and yet very welcoming and I felt comfortable in both the dressing room area as well as among all the lights, filters and cameras!

However, I was most impressed and so appreciative of the services you provided during the Design Consultation prior to the shoot. You took the time to ask questions about the image I wanted to project and how I wanted to use the photos. Even more helpful was your advice as to "what to wear" by actually Zooming with me in my closet! Most importantly, during the photo session you guided me on exactly how to stand and hold my head and shoulders to create the most flattering pose.

I love my headshot and was proud to use it right away to update my online pictures. I have received numerous comments on how good it looks. I can highly recommend you for your professionalism and expertise.

With deep gratitude and respect,

Linda M. Loud
