Alpharetta GA 30004

Dear Daniel,

I'm writing this endorsement letter based on some rave reviews from my youngest daughter, Katie. She had recently moved back from Colorado and needed to update her auto insurance and also obtain renter's insurance. She had a lot going on with the move, plus needing to renew her driver's license... and going to job interviews, all while impatiently awaiting renewal of her Physical Therapy license to again practice in Georgia. Things were coming down to the wire for deadlines. And she seemed to be testing the truism of "If it weren't for the last minute... just think how many things would NOT get done!"

Katie was most impressed with your prompt response in spite of her tight time frame. She also commented on your professionalism, and how thorough and helpful you were in recommending coverage that best suited her needs.

Thank you so much for your assistance in guiding her through the complexities of all the insurance options that you are able to offer as an independent broker. She and I both appreciate you. We feel confident recommending you to friends and family members.

Sincerely and with deep gratitude,

Linda M. Loud
