Re: Endorsement Letter – Kenitra Harrington
Ace Handyman Services ATL Intown East

To Whom It May Concern:

Several months ago, a client called me in need of a handyman—his bathroom toilet was starting to leak, and water was starting to drip into his neighbor's condo below. He didn't have the time or tools to fix it himself, and he needed someone he could trust to handle it quickly. Without hesitation, I gave him Kenitra Harrington's number.

Kenitra immediately stepped in and made the process smooth and stress-free. She spoke with the client directly to understand the issue, selected the right craftsman for the job, and followed through every step of the way. Her communication was clear and timely, and the client appreciated how involved she was in making sure things went well.

The handyman showed up on time, replaced the wax ring, and resolved the issue before it could turn into a bigger problem. My client told me how impressed he was—not just with the repair, but with how easy and reassuring the experience felt, thanks to Kenitra. That's why I continue to refer clients to her: she turns problems into solutions and makes people feel taken care of.

I fully endorse Kenitra's work coordinating top-notch service at Ace Handyman Services. She makes sure every job runs smoothly and every client feels taken care of.

Sincerely,

Barry E. Edwards, II
