**RE: Endorsement of Leslie Pierce, owner of Nest Financial Services, LLC**

To Whom It May Concern,

I am writing to offer my highest endorsement for Leslie Pierce, a Certified Accountant whose professionalism, expertise, and generosity of spirit truly set her apart.

Recently, I found myself in a challenging situation that required urgent financial guidance. Despite the short notice, Leslie graciously took the time to review my documents with care and attention to detail. What stood out most was not just her technical knowledge, but the way she delivered it—with patience, clarity, and genuine kindness. She explained every aspect of the process in a way that made sense, never once making me feel rushed or inadequate for asking questions.

It is rare to encounter someone who not only excels at their craft but also leads with empathy. Leslie embodies both. Her ability to make complex financial matters understandable while maintaining such a calm, supportive demeanor was a true gift. I am great in medicine but not too comfortable with numbers without making extreme effort. Leslie gave me hope that I can thrive at both the service and financial aspect of medicine. Thanks to her, I left our meeting not only with a clear path forward but with peace of mind.

You know the word on the street is there are three people you should be honest and careful with because they can make or break you: doctor, lawyer, and your accountant. The great news is if you are looking for a CPA who is knowledgeable, dependable, and truly invested in her clients' well-being, I cannot recommend Leslie Pierce highly enough. She is a consummate professional and a remarkable human being, and I feel fortunate to have had her guidance. Thank you, Leslie! Keep being the amazing you!

**Warmly,**
