I would like to express how Angie Hays is by far the most down to earth real estate agent I've ever met. Her work ethics are proof in the pudding that she cares and really wants to help whether it will make her money or not. I reached out to Angie about a year ago for a friend of mine that wanted to sell his house in my neighborhood, although I didn't know he already started working with someone. Angie didn't hesitate to reach out to him and also to let him know that if he needed anything at all she would be there to help.

Just recently my husband and I were thinking about moving and Angie added me to an automatic email for listings that are exactly what we desire. I would recommend Angie to anyone, whether a friend, co-worker or acquaintance because I trust and believe she will help them until they get to where they need to be.

Thank you, Angie for your professionalism and for your heart!
