Mrs. Jacque Streever

Mary Kay Cosmetics, Ind. Pink Cadillac Sales Director
Brookhaven Team

My first meeting to Power Core, I was lost and could not find the entrance to the building. I remember Jacque, who was the visitor coordinator then, staying on the phone with me to make sure I would make it to the door and greeted me with a welcoming smile.

Jacquie is a Sales Woman extraordinaire, who could sell hot water in the middle of the summer, because she is in the people business. With every ordinary sale, she always thanks you for choosing her and makes you feel special.

Jacquie is a true leader to her sales associates and is both empathetic and compassion with them, looking always for their best interest, always attempting to help them see their true potential. She empowers them!

My last purchases Jacquie shipped items out of state and there was a glitch with shipment, two months after my family received the items, because she follows through until the very end!

Thank you, Jacquie, for being our Power Core Pink Lady!

Sincerely yours,
