Mr. Max Middleton
Big House Construction
Brookhaven Team

There are things we take for granted daily, that when in jeopardy creates unrest in your daily routine. Last year on August 8th, my family and I experience this situation. We had a broken pipe which affected two thirds of our home, water flooding from the ceiling all over the place. We lived in hotel and rental home for 6 months with the bare essentials. It's moments like this you realize that home is where your heart is!

Info Minutes are essential, as they helped us figure out who to call. We selected Max, who came to the house to assess and came back when the insurance adjuster visited and spoke the words to ensure, we did not jeopardize our claim.

As mentioned, it was 6 months processed to return home, Max and his team allowed us to return home. We are still purging home and finding items, but we are Home!

Thank you, Max for allowing to come back home!

Sincerely yours,
