To Whom It May Concern,

I'm writing to enthusiastically endorse Stefan Delay with Stefan Pro Scapes for anyone looking to transform their outdoor space with a team that is professional, knowledgeable, and genuinely trustworthy.

When Stefan arrived at my home, my backyard was in rough shape. The pine straw had completely disappeared, weeds were taking over, and the rest of the yard was either bare or muddy. It wasn't just unattractive, it was unusable. But Stefan approached it with the eye of a professional and the heart of a coach.

He didn't just quote a price, he walked me through what he could do with the pine straw and then went above and beyond by offering guidance on how I could help improve the condition of my yard long-term. He showed me how strategic trimming of a few tree branches would allow more sunlight to reach the ground and help the grass grow, something I never would have considered on my own. He also shared with me what products to use to get rid of the weeds. That kind of insight and personal investment really stood out.

When Stefan and his team got to work, three things became immediately clear:

1. **They are incredibly efficient.**
2. **They are meticulous.** Every corner of the yard was treated with care, and nothing was left unfinished.
3. **Their character is exceptional.** These are the kind of people you can trust to be at your home, even if you're not there, and know the job will not just get done but done right.

Thanks to Stefan, my backyard has been completely transformed. It's beautiful, clean, and finally feels like a space we can enjoy. Even our dog Juliet is thrilled to have a yard she can run around in again!

If you're looking for someone who brings expertise, integrity, and excellence to the table, I can't recommend Stefan Delay and Stefan Pro Scapes highly enough.

Sincerely,

Lindsey L. Turner, NSSA ®
