For Damon Grimaldi:

Since I am native to Atlanta, many of my friends and clients call me asking for referrals for various needs. I joined PowerCore in 2019 to learn how to GET referrals and GIVE referrals, and that's how I met Damon Grimaldi.

Frequently, I have friends and clients reach out to me for a recommendation for someone capable of handling various tasks around the house. They seek a highly skilled, knowledgeable and professional Handyman. Only one name stands out in my mind... Damon. Usually, they text Damon and he responds promptly. I often tell Damon, *"I referred you to my friends and clients to make ME look good."*

Damon surpasses my expectations. For me the term "Professional Handyman" signifies an individual who responds quickly, arrives on schedule, executes the task correctly and leaves the space tidier than they found it.

Whenever I have the opportunity to recommend Damon, I do so with a smile, confident that - Damon will reflect positively on me.
