

## Endorsement Letter

Ico Nix Electrical

### **To Whom It May Concern:**

Recently, I hired Nix Electrical to replace two outdated, unattractive ceiling fans with modern, visually appealing ones. The work was done quickly, cleanly, and with evident skill.

One of the new fans turned out to be defective right out of the box. Once I sourced a replacement, Nix returned promptly and completed the installation at no extra charge. That kind of follow-through says a lot—it's not just good service, it's professional pride.

The end result is a far more attractive, updated look to my space, completed without hassle and with attention to detail. I can recommend Nix Electrical without reservation.
