

## Endorsement Letter

Ico Hunter Dolan

HD Lasercrafts

### **To Whom it May Concern:**

Recently I engaged Hunter Dolan at HD Lasercrafts for a series of custom projects, including client appreciation gifts (logo-imprinted coasters), branded team hats, and my signature high - luxe metal business cards.

Hunter approached each item with precision and care, ensuring not only that the finished products were flawless, but that they carried the presence and refinement I wanted my brand to convey. His consultation throughout the process was spot-on, and his craftsmanship was evident from the moment each piece came out of the box.

The end result was exactly what I needed — pieces that aren't just functional, but that elevate every interaction they're part of.

I can wholeheartedly recommend Hunter Dolan and HD Lasercrafts without reservation.
