

October 21, 2025

Dear Dr. Pack,

I just wanted to thank you for taking the time to show me what you do and make me feel better. The care you provide is so unique. The technical language in your education and background doesn't quite capture the gentle, unconventional spirit of your practice. It's something that must be experienced.

As a typical middle-aged American, I walked into your office with chronic aches and pains. Not only did you alleviate them, you explained why they happen in the first place. You're a one-woman diagnostic powerhouse when it comes to the human body. I can't imagine there's a person out there that wouldn't benefit from your expertise. I hope they all find you!

Best,
