Dear Nyemade,

I just wanted to thank you for your time and attention when I was seeking auto insurance quotes.

I was shocked when you came back with results the very same day. Your advice? I should stick with what I have. Even though I was not going to become a client of yours, you were still kind enough to offer some suggestions for bringing my premiums down.

When you say you want to help people, I know it's true because I've seen it in action. Your knowledge and long career in the insurance industry is just an added bonus! Thank you so much for your help.

Best,
