It's my pleasure to share how much my husband and I appreciate Dr. Kenny at Strack Chiropractic Wellness Center. My husband Fred is currently undergoing cancer treatment, and when he began having trouble walking, he assumed it was related to his treatments.

Dr. Kenny took the time to listen carefully and suggested taking an X-ray of Fred's hip and back to truly understand the cause. The great news—It wasn't related to the cancer, but arthritis! Dr. Kenny developed a treatment plan that included specific adjustments and at-home exercises to help Fred regain strength and mobility.

Fred says that Dr. Kenny always takes his time, explains every step, and offers valuable insight into what's going on and why. He goes the extra mile, and that personal care has made such a difference.

We're so thankful for Dr. Kenny and highly recommend Strack Chiropractic Wellness Center to anyone seeking compassionate, effective care.

With Sincere Respect,

*JACQUE STREEVER*
