Tim,

I want to thank you personally for the manner in which you handled my daughter Olivia's auto insurance coverage. Like most Moms, we want the best for our children, and I am so happy I referred you to Olivia for her insurance. As a recent college graduate, her budget was tight, and we all know that car insurance can be a big expense, especially for a driver under the age of 25.

I've heard your info minutes and 7 minute presentations at our Powercore table for almost a year now, and nothing proves your experience and careful attention better than the time you took to ensure that Olivia had the best coverages, as well as each and every possible discount she qualified for. I will continue to recommend you to my clients, friends and family and will soon be asking for a quote for my own auto insurance as it is coming up for renewal soon.

Thanks so much for always taking the time to make a great impression!

Sincerely,

A handwritten signature in black ink that reads "Linda Lullie". The signature is written in a cursive, flowing style with a large initial "L" and "L".
