Drew Harrison

Health Advocates United

To whom it may concern,

I'm writing this letter to share my positive experience working with Drew Harrison. I've only officially been a client for a couple of weeks, but I'm simply blown away by his professionalism, communication, and genuine care.

It's clear that he goes above and beyond for his clients, ensuring that they are prepared with all of the information they need, before and after getting approved for the plan that he helps you pick. It's rare to find someone who combines expertise with such a personal touch. He leads with ensuring each client understands that he is not just selling a plan to them. He is truly an advocate for each one of his clients, and that is so important when navigating the complicated world of health insurance. The big carriers tend to care about a bottom line, but Drew cares about YOU.

When I initially started my journey as an independent sales rep, I immediately bought the cheapest plan I could find on the marketplace. Drew was able to help me find a new plan with a comparable premium, but with tremendously improved coverage and benefits. Although I also work in insurance, I am not as well-versed in the medical side, and Drew helped to easily break everything down into plain English, so that I fully understood the great coverage I was signing up for.

Based on my experience, I can confidently say that Drew would be a tremendous asset to anyone who chooses to work with him. His combination of character, work ethic, and personal touch is unmatched, and I am grateful for the support he's provided me.

Sincerely,

Hannah Green
