Re: Letter of Endorsement

To Whom it May Concern,

Michael Sage of That 1 Painter painted my daughter's home and most recently my son's. He and his team are more than mere painters, they acted as advisors, answering questions about color choices and explained how the natural ambient light in each room would shift tones throughout the day. That guidance made it easy for my son to choose the best color that worked for his ever-changing lighting conditions.

The crew was professional and thorough at every stage, from prep to cleanup. Most importantly, it was clear they had a genuine interest in making customer satisfaction first and foremost from start to finish. It's not just a job for them as the work is not done until the client is satisfied.

The work he and his team performed for both my children was consistent. They both commented on the professionalism, attention to details and investment in ensuring superior results.

I highly recommend Michael Sage of That 1 Painter for all painting related needs.

Best Regards,

Alpharetta Portrait Photographer
