

Letter of Endorsement: Ramona Baptiste

I received an unexpected final warning notice from the IRS regarding an alleged outstanding balance from my 2021 taxes, despite never receiving any prior notification. To make matters worse, this notice arrived just two weeks before Christmas, creating significant stress and urgency during the holiday season. I immediately reached out to Ramona, knowing that she can help me!

She responded quickly and conducted a thorough review of my IRS account. She discovered that the issue was due to a faulty refund the IRS issued during the COVID period, not an error on my part. She promptly placed a hold on my account, which allowed me to repay the balance without any additional penalties or enforcement actions.

Ramona was outstanding throughout the entire process. Her expertise, responsiveness, and clear communication turned a highly stressful situation into a manageable one-and quite literally saved Christmas. I highly recommend her to anyone looking for a knowledgeable, dependable, and proactive CPA.

I truly appreciate your time, help and expertise Ramona!

Thank you,
