

Dr. Jason Regis
4343 Shallowford Road Suite H6
Marietta, GA 30062

My experience with Dr. Regis aka “**The Bone Whisperer**” was truly transformative and went far beyond typical chiropractic care. I initially sought treatment because I was severely **out of alignment** and suffering from significant discomfort, specifically **chronic back, neck, and knee pain**. It had become clear that I needed a solution that addressed the root cause of the issue, not just the symptoms.

Expertise and Approach

What sets Dr. Regis apart is his sophisticated, **holistic approach to care** and his deep professional credentials and experience. His background, including a **Master's Degree in Sports Health Science**, is evident in his treatment methodology. He focuses on a comprehensive wellness plan that includes:

- **Correcting Imbalances:** He looks at the body as a whole, addressing the specific factors—be they physical, emotional, or lifestyle stressors—that cause misalignment.
- **Restorative Conditioning:** He integrates rehabilitation and advanced conditioning, ensuring the results are lasting and prevent recurrence.

This detailed and corrective method was incredibly effective. Dr. Regis successfully relieved my pain and **healed my ailments**, ultimately getting my body back in a state of balance and optimal function.

Clinic Experience

Beyond the excellent clinical results, the overall team experience at The TWT is exceptional. The entire **staff is highly responsive, caring, warm and professional** - making scheduling, follow-up, and general care seamless and supportive.

For anyone seeking long-term relief and a commitment to overall wellness rather than temporary fixes, I wholeheartedly recommend placing your health in the trusted hands of Dr. Jason Regis and the Transformation Wellness Team.

Sincerely,

Myrna Cesar
